CENSUS OF INDIA, 1951

PUNJAB

DISTRICT CENSUS HANDBOOKS

VOLUME 11

FEROZEPORE DISTRICT

COMPILED & PUBLISHED UNDER

THE AUTHORITY OF THE PUNJAB GOVERNMENT

PRINTED BY THE CONTROLLER, PRINTING & STATIONERY, PUNJAB

Printed by the Controller of Printing and Stationery, Punjab, Simla
at Ambala Printing Press Simla, Phone No. 3317.

PREFACE

The District Census Handbook is a collection of the following data:

1 Introduction which deals with the following :—

(a) Physical Aspects.

(b) Geology.

(c) Archæology.

(d) Climate.

(e) Rain Fall.

(f) History.

(g) Population.

(h) Administration.

(i) Medical and Public Heal h.

(j) Education and Literacy.

(k) Agriculture and Co-operative.

(l) Industries.

(m) Local Bodies.

(n) Rehabi itation of Displaced Persons.

(o) Places of Interest.

2. District Censds Tables (furnishing district data with break-up for ceusus tracts, within the district). In case of Ferozepur District there are 5 Tahsil Rural Tracts (Ferozepur Tahsil Rural Tract Zira Tahsil Rural Tract, Moga Tahsil Rural Tract, Muktsar Tahsil Rural tract, Fazilka Tahsil Rural Tract) and District Ferozepur Non-City Urban Tract. There are the following tables for the Ferozepur District :—

A-I Area, houses and population.
A-II Variation in population during fifty years.
A-III Towns and villages classified by population.
A-IV Towns classified by population with variation since 1901.
A-V Towns arranged territorially with population by livelihood classes.
B-I Livelihood classes and sub-classes.
B-II Secondary means of livelihood.

B-III Employers, Employees and Independent Workers.

C-II Livelihood classes by age group.

C-III Age and Civil Condition.

C-IV Age and literacy.

C-V Single year age return.

D-II Religion.

D-III Scheduled Castes and Scheduled Tribes.

D-IV Migrants and Subsidiary.

D-V Displaced Persons by district of origin, and date of arrival in India.

D-VI Non-Indian Nationals.

D-VII Livelihood classes by educational standards.

E. Summary figures by districts.

District Index.

Sorter's Ticket 2.

3. Census Abstracts :—

(i) Primary Census Abstracts.

(ii) Census Abstracts of Small Scale Industries.

LAKSHMI CHANDRA VASISHTA.

INTRODUCTION.

FEROZEPUR DISTRICT

PHYSICAL ASPECTS.

Name and derivation.

The District of Ferozepur takes its name after the town of Ferozepur which was founded by Ferozeshah Tughlaq. Another tradition connects its foundation with one of the Bhatti Chiefs named Ferozekhan.

Boundaries and situation.

The district is situated between 29° 54′ 10″ and 31° 09′ 45″ North and 73° 51′ 50″ and 75° 25′ 10″ East.

It is the southern most district of Jullundur Division. The major compact part of the district is bounded on the north-east by River Sutlej and Kapurthala district, on the north-west and west by the united stream of Sutlej and Beas which separates it from Amritsar district and Pakistan territory, on the east and south-east by the districts of Jullundur and Ludhiana of Punjab State and Barnala district of Pepsu and on the south and south-west by the territory of Pepsu and Rajasthan and Hissar district. The district has the shape of a scale. Zira and Moga on one side while Fazilka and Muktsar on the other side serve as the weighing pans and Ferozepur Tahsil acts as a beam. Nathana Sub-Tahsil is a detached part of Ferozepur Tahsil and is surrounded on all sides by the Pepsu territory.

Area

The area of the district at present is 4107.3 square miles. 21.27 square miles of territory of Pepsu comprising seven villages of Chirk circle of Bhatinda district have recently been added on account of the Absorption of Enclaves Order 1950. It is the 3rd biggest district of the Punjab State in respect of area:

Features of the surface.

The surface is plain throughout the district sloping gently from the north-east towards the south-west at a rate of 1½ feet in a mile. The soil is generally of alluvial formation. The soil of Fazilka, Muktsar (except a strip along the course of the river) southern parts of Zira and eastern

parts of Ferozepur is sandy. The soil of the Bet area is of dark grey clay intermixed with strata of sand. The soil of the rest of the area may be termed as Rohi, which is redish brown in colour. The height of the Tahsil Headquarters from sea level is as under:-

Name of tahsil	*Height above sea level.*
Ferozepur	649 feet.
Zira	695 .
Moga	720 ...
Muktsar	650 ....
Fazilka	588 ...

Rivers and alas.

Only river Sutlej runs in the district. There are some Nalas which only flow occasionally during very heavy rains or floods. They are (i) Sukkar Nala (ii) Danda Nala (iii) Sotar Nala, and (iv) Moga Nala.

River Sutlej.

The River Sutlej forms the tentative boundary between the Ferozepur District of Punjab (India) on the left side and Lahore and Montgomery Districts of Punjab Pakistan) on the right side. The tract in the vicinity of the rivers is under water during floods Therefore, the flooded area usually has a very good Rabi crop.

There is a canal Headworks at Hussaini wala about six miles from the city.

A Barrage across the river Sutlej was constructed near Hussaini wala in 1926. Two canals, namely, Bikaner, also known as Gang Canal, and the Eastern Canal take off from the left side, while Dipalpur Canal takes off from the right side and serves Dipalpur side now lying in Pakistan

I. *Bikaner Canal.*

It is a concrete lined perennial channel, 80 miles in length with a discharge capacity of 2720 cusses. It irrigates areas in Bikaner State now forming parts of Rajasthan Union.

II. *Eastern Canal.*

It is a non-perennial channel with full discharge capacity of 3320 cusses. It irrigates total areas of about 3,89,545 acres of Ferozepur, Fazilka and Muktsar Tahsils. The principal crops irrigated by it are rice, sugarcane,

cotton, wheat, gram, barley and oilseeds. The Sub-soil water table in a belt of about 20 miles width along the river is rather high. In order to relieve the area from high water table drainage sche-mes are under investigation.

Dipalpur Canal.

This canal has full supply discharge capacity of 6800 cusses. It irrigates areas now forming part of Pakistan. The Headworks is under the control of the Indian Union.

Due to the possibility of Pakistan excavating a canal withdrawing supplies from Upper section of Ferozepur Headworks and out flanking the barrage, it has been considered necessary by the Indian Union to construct a new Barrage at Harike nearly 30 miles above Ferozepur Headworks and immediately below the confluence of River Sutlej and Beas. The Headworks at Harike is under construction now. A feeder canal will take off from Harike and will link both Bikaner and Eastern Canals at mile 9 from Ferozepur Headworks, when these two canals will take their supplies permanently from Harike Headworks instead of Ferozepur Headworks as present.

Some parts of Moga, Zira, Muktsar, and Ferozepur Tahsils and Abohar and Malout of Fazilka Tahsil are irrigated from Grey Canals (Sidhwal Division) and Sirhind Canals.

The areas along the river Sutlej are subject to floods during the rainy season A *pucca* masonary core wall has been built in the marginal *bund* which protects Ferozepur City and Cantonment from flood water It (the bund) stretches from Ferozepur Headwork to Makhu and Harike along the left side of the river. This *bund* has saved the city from floods.

GEOLOGY.

The soil of the district being alluvial, there is no indigenous stone. Kankar is found in places and in some of the wells especially in Fazilka Hithar circles a curious

impervious stratum of whitish colour known as 'Han' occurs.

ARCHAEOLOGY

There are practically no remains of archaeological interest in the district. Probably the oldest building in the district is the mosque at Jalalabad which was constructed during the time of Akbar. There are several important Gurdwaras here. The tomb of Rai Mansoor near Madrasa is also of some antiquity. There are also some Sikh Shrines and the Shrine of Mata Damodri at Droli Bhai is the oldest one. Muktsar is another place connected with the visit of Guru Gobind Singh. At Guru Harsahai, there is an old building known as Pothi Mala. A Gurdwara exists in this building and reflects very fine archaeology of old days. One Holy Book said to be written in the hands of Guru Nanak Dev and a rosary used by Guru Nanak Dev are placed in the Gurdwara. This historic book and articles are said to have been given as a gift by the Sikh Gurus to the ancestors of the present Guru Family. The Holy Book and the Rosary are open to public only once a year *i.e.* in the last week of March each year. Hindus and Sikhs mostly belonging to Frontier Province (N. W. F P.) had great faith and they visited this shrine in large numbers. At Droli Bhai a Granth Sahib, two Parwanas presented by Guru Gobind Singh and some clothes belonging to Guru Har Gobind are preserved. At village Mari in Sub-Tahsil Nathana, there is a brick building of considerable antiquity resembling the old Mohammadan architecture.

CLIMATE AND RAINFALL.

The climate resembles that of Hissar. It is very hot in summer with frequent dust storms till the out, break of monsoons at the end of July or beginning of August and very cold in winter. The period of break in the rains is apt to be rather oppressive The low lying areas of *bet* and tracts where rice is grown, become malarial in September and October. The rainfall varies between wide limits. There is a marked tendency for the rainfall to descrease as one goes westward. Approximately the descrease is at the rate of an inch every ten miles. The average rainfall for 19 years from 1930 to 1949 at the Tahsil Headquarters is as below :—

Ferozepur	15.01"
Moga	19.19"
Muktsar	12.64"
Zira	17.8"
Fazilka	10.14

HISTORY.

The district has little or no history attached to it prior to the times of Akbar. During the reign of Akbar, Ferozepur is mentioned as the centre of a large pargana attached to the Suba of Multan. Another pargana mentioned in it is Muhammedot which was probably the name given to modern Mamdot. The district came into the hands of the sikhs in the years 1763–64. Upto 1835 it remained under the sway of the Sikhs but the territory fell to the British Government on the death of Sardarni Lachhman Kaur who died in December, 1835.

After the First Sikh War of 1845 which was fought at Mudki, Ferozeshah, Aliwal, and Sabraon, the district started expanding and developing. In 1884 with the abolition of the Sirsa District, its western half including the Fazilka Tahsil and 40 villages of Dabwali Tahsil became part of this district.

POPULATION.

The district with a population of 1326520 souls (717110 males and 609410 females) stands second among the thirteen districts of the Punjab. The tahsil-wise population is as under:-

Name of Tahsil	*Population*	*Males*	*Females*
Ferozepur	252214	141091	111123
Zira	151184	81721	69463
Moga	305502	163436	142066
Muktsar	258845	139535	119310
Fazilka	358775	191327	167448

The classification of population by livelihood pattern is as under :—

	Name of Class.	*Persons.*
I.	Cultivators of land wholly or mainly owned and their dependants.	393674
II.	Cultivators of land wholly or mainly unowned and their dependants.	387430
III.	Cultivating labourers and their dependants.	162169
IV.	Non-cultivating owners of land, agricultural rent receivers and their dependants.	36921
V.	Production other than cultivation.	50027
VI.	Commerce.	107347
VII.	Transport.	8329
VIII.	Other services and miscellaneous sources.	180623
		1326520

The urban population numbers 225082 and the rural comes to 1101438.

ADMINISTRATION

The administration of the district is under the control of the Deputy Commissioner with headquarters at Ferozepur. He has got sufficient staff to help him. There are two sub-Divisions at Moga and Fazilka and are under the charge of Sub-Divisional Officers. There are five tahsils and two Sub-tahsils. Each tahsil is under the charge of a Tahsildar who is assisted by a Naib Tehsildar and other staff. There are two Sub-Tahsils at Nathana and Abohar under the charge of Naib-Tehsildars exercising the powers of Magistrates 2nd Class. The District and Sessions Judge is the Judicial Head in the district and he has got sufficient staff for the disposal of Judicial work. The Senior Superintendent of Police with two

additional Superintendents of Police and other staff maintains law and order in the district which is rather a turbulent one. It has its importance as it is a border district.

There are other officer of various departments who help the Depnty Commissioner in the administration of the district and these officers remain in close touch with the public. It is the Divisional Headquarters of the E. P. R. and there is also a very big Cantonment.

MEDICAL AND PUBLIC HEALTH.

The Civil Surgeon is incharge of the Civil Dispensaries of the District, while the District Medical Officer of Health is incharge of the Rural Dispensaries. They have got sufficient staff to look after the public health.

Each local body has its own staff to look after the public health and sanitation. At Ferozepur there is a Civil Hospital with an accommodation of 50 beds There is also a big Female Hospital run by the Mission Authorities. There is also a Cantonment General Civil Hospital, a Military Hospital, a Railway Hospital and a Police Hospital.

EDUCATION AND LITERACY.

According to the Census of 1951, 303846 persons (194970 males and 108876 females) have been found to be literate in the district giving a proportion of 22 9 to the total population. There are six Colleges, 34 High Schools and a number of Upper Middle, Lower Middle and Primary Schools in the district.

AGRICULTURE AND CO-OPERATION.

3/4th of the population of the district depends upon agriculture and 3/4th of the land is available for cultivation. The main sources of irrigation are canals and wells, but half of the cultivated land is Barani.

The principal Kharif crops are Rice, Bajra, Jowar, Maize *Moth*, *Mong*, *Til*, Sugarcane, Cotton and *Chari*, while the Rabi crops are wheat, barley, gram, oilseeds, tobacco, *toria* and *tara-mira*. Due to extensive propaganda, this district is bringing the largest area under L. S. S. Cotton. The district is a surplus one from the point of view of production of foodgrains and has been showing the highest results in procurement of foodgrains under the Government Procurement Scheme. There are 492 co-operative societies out of which 3 are Central Co-operative Banks. There are 16789 members of the societies and the total capital of the co-operative societies in the district is Rs. 4428391/-.

INDUSTRIES.

It is the biggest cotton growing district in the State with the result that cotton ginning and cotton pressing factories have sprung up at Ferozepur, Abohar, Muktsar and Fazilka. At Ferozepur, there is the Sutlej Flour Mill for grinding wheat. The said mill also manufactures soap, which is exported to other places under the name of Modi Soap. Jallabad, Kishanpura, Kokri and Muktsar are famous for leather works and Indian shoes. Persian wheels and other iron articles are manufactured at Moga, Bagha Purana, Dharamkot and Kishanpura. The coarse *Khaddar* and *Kheses* are prepared in almost every village. A tooth brush factory has been opened at Moga and the wheat laboratories at Ferozepur are known for wheat products. But since the partition of the Province this district has become one of the hard hit areas and trade is going down day by day with the result that the future wealth of the district has been seriously affected as this district lies on the Indo-Pakistan Border.

LOCAL BODIES AND PANCHAYATS.

The percentage of the urban population out of the total population of the district is 17%. There is a District Board of which the Deputy Commissioner is the Chairman. There

are Municipal Committees at Ferozepur, Zira, Fazilka, Moga Abohar, Muktsar, Notified Area Committees at Bhucho Mandi, Guru Harsahai, Jalalabad and Basti Tankanwali.

There are Town Committees at Dharamkot and Giddarbaha and a Cantonment Board at Ferozepur.

REHABILITATION OF DISPLACED PERSONS.

Ferozepur district has accommodated the greatest number of displaced persons among all the 13 districts of the Punjab State. The Muslim evacuees had practically left 662968 acres of cultivated area, out of which 276067 acres were Barani and the rest was irrigated area. The district has accommodated 349767 displaced persons, out of whom 282359 have settled in the rural areas while the rest have gone to the urban areas.

Rs. 186735/- have been distributed as loan in 2950 cases and Rs. 194290/- as grants to widows and displaced persons in 1053 cases in Urban Branch. Similarly, a sum of Rs. 29,942 has been distributed upto March, 1952 to 101 persons as special maintenance allowance amounting to Rs. 2274/-per mensem. There are three mudhut colonies in this district. They are at Moga, Patel Nagar and Malout. The total number of mud-huts constructed is 1030 and 4449 refugees are living in these mudhuts.

A special home for unattached women and children has been started in Yatimkhana, Ferozepur Cantoment by Government of India, Ministry of Rehabilitation. There are 127 such women and children in this home and a sum of Rs. 25/- per head per month is being spent by the Government for the maintenance of the above women and children.

A sum of Rs. 6084000/- has been advanced as loan to 126239 displaced persons and a sum of Rs. 304852/- has been given as grant to 3910 displaced persons in rural areas.

PLACES OF INTEREST.

Ferozepur City

The town of Ferozepur was founded in the time of Feroze Shah, Emperor of Delhi in 1351—1387. It is surrounded by a Kacha wall with ten gates. A metalled circular road girdles the wall round the City. There are some gardens along this road and the Macfarquhur garden is the famous one. On the west, is the city Railway Station. The town is surrounded by a number of Bastis including Basti Tankanwali, which is now a separate local body.

River Sutlej flows at a distance of about 5 miles from this town and on the Ist of Baisakh, a fair is held every year. There is a degree College for boys and a separate Dev Samaj Degree College for girls. Dev Samaj authorities also run a training college for women in Ferozepur City. There is a Government High School for boys and a Government High School for girls. Besides this there are three High Schools for boys and three for girls which are run privately. There are four training institutions run by the State Government and one by the Government of India. The Government Industrial School for boys imparts training in Turning Moulding, and Welding etc. and has room for 30 trainees. The Government Industrial School for girls imparts training in Tailoring, Embroidery, Knitting etc. and has room for 100 trainees. The Vocational Training Centre imparts training in Turning, Welding etc. as well as in electrical works and tractor driving. This centre can provide accommodation for 130 trainees. The institution run by the Government of India is the Technical Training Institute under the control of the Local Employment Exchange, which in itself is under the control of the Ministry of Labour. This institution provides training in sheet metal work, carpentry, painting, blacksmithy etc. and has

approximately 150 seats. There is a Civil Hospital and a Veterinary Hospital. The Municipal Committee has its own Medical Officer of Health. There is also an Anti-T. B Clinic at Ferozepur City with a medical Officer Incharge who is a Tuberculosis specialist. This is run by the District Anti-T. B. Association. There are three principal markets in the city.

Ferozepur Cantonment.

At a distance of about two miles towards the south of Ferozepur City lies the Cantonment. Both the city and cantonment are connected by a road. The District courts and other offices are situated here. It is also a railway junction and the offices of the Divisional Superintendent of East Punjab Railways are located here Towards the south-west of the town is the Canal Colony, where the Canal Offices, Canal Rest Houses, Bungalows of Canal Officers and residential quarters of the employees of the Canal Department are situated. To its east is the Military Dairy Farm and further towards the east are Military Offices. A Cantonment Board functions here. It has got good roads. The D. C. Jain College is a degree college for the boys.

Before partition there were no good roads in this district. Now Ferozepur has been connected with Fazilka and Zira has been connected with Makhu and on to Amritsar. A proposal is now afoot that Abohar should be connected with Ganga Nagar (Rajasthan). There is another road which is under construction *i e.* from Muktsar to Jalalabad. There are good and neat roads which are being maintained by the P. W.D. and Ferozepur is connected with the entire State now. It is also the headquarters of the Divisional Superintendent, E. P. R. and is a great junction. In addition to the above there is a good air-field in Ferozepur Cantonment where even big air-ships can now alight

ZIRA.

It is the tahsil head-quarters and is situated towards the east at a distance of 24 miles from Ferozepur. It is a small town with practically no trade. It has recently been connected with Makhu by road and thence to Amritsar. It has one good Jain Temple and has got no other historic buildings. It is the headquarters of the Resident Magistrate Zira. Makhu, a supurb town, is gaining great importance because of Harike works. Zira has got a High School for boys and the Red Cross is running a maternity and child welfare centre.

MUKTSAR

It is the headquarters of the tahsil and is situated at a distance of 50 miles towards the south of Ferozepur. A Resident Magistrate has been posted here. The town owns its present name to Guru Govind Singh. It has got several gurdwaras here and the holy tank was constructed during the time of Maharaja Ranjit Singh and was completed with the help of Maharajas of Patiala, Jind, Nabha, and Faridkot. On the first of Magh, an annual fair called 'Maghi' fair is held here. The tank was cleaned and rebuilt in 1933. There is a Government College and two High Schools. It is connected by road and rail. It has got a good civil hospital. There is a water-works for drinking purposes.

GIDDARBAHA.

It is a small town situated on the sourthern side of Muktsar Tahsil in police station Kot Bhai. It is on the Bhatina-Hindumalkot Railway line. It is an important market for foodgrains and cotton. Water level is extremely low and deep. This place is generally very hot in summer and cold in winter. Rainfall is scarce and cultivation mostly depends upon canal irrigation. It has a Small Town Committee. The drinking water supply arrangements are fairly satisfactory. The water is stored in huge tanks.

There are pubic parks and a very nice rest house. The Resident Magistrate is the President of the Committee. There is a Civil Dispensary and also a separate dispensary for women and children. There are three big cotton ginning and pressing factories in this town.

GURU HAR SAHAI.

The Guru Harsahai Mandi lies on the Ferozepur-Fazilka section of the E. P. R. It is a part of Muktsar Tahsil but Ferozepur tahsil is easily approachable. In its north passes river Sutlej at a distance of about 9 miles and beyond that is Indo-Pakistan Border. The climate is damp. In the Mandi, there is a Notified Area Committee under the Chairmanship of the Ilaqa Magistrate. It has a Civl and a Veterinary Hospital. There is a High School for boys and Middle School for boys and girls.

There are two Mandirs of two virgin women who are known as Mata Jajol and Mata Hasne Wali. A large number of their disciples visit this place twice a year and form a big mela. There is a Pothi Mala temple under the charge of Guru Jaswant Singh. Both the Pothi and the Mala are connected with Guru Nanak Dev.

FAZILKA.

Fazilka is the headquarters of the tehsil and is also the sub-divisional headquarters of the Sub-Divisional Magistrate. In the middle of the 19th century, this town came into existence and was named after Fazil one of the early settlers. The Bazar given the name of Oliver Ganj after the name of British Officer Oliver. Mr. Oliver laid out a garden near Badha Lake. It is a II Class Municipal Committee. Badha Lake, Clock-tower, Radio Hall and the building of M. R. College are attractive places here. It was the biggest wool market in India before partition and still enjoys a good reputation in this respect although it has received a great

set-back due to the partition of the province. Compulsory primary education is in vogue at Fazilka. There are two Government High Schools one for boys and the other for girls. Besides this, there are two privately managed high schools. There is one Degree College known as M. R College, and a Civil Hospital.

ABOHAR.

It is the sub-tahsil under the charge of a Naib Tahsildar. Abohar is an historical place and appears to have been mentioned by Ibn-Batula about 1341 A. D. as the first town in Hindustan and even it was in a desert. There are remains of a large fort, which must have been at one time of considerable strength and importance and the villages have a tradition that many centuries ago it was held by a Rajput Raja Abram Chand. With irrigation from the Sirhind Canal in this tract and the opening of South Punjab Railway in 1897, this town has become prosperous. It is a big grain and wool market. There is a Municipal Hospital with separate male and female sections. It has also a Sewa Samati Ayurvedic Dispensary. There is 24 hours slow Sand Filter water supply. The drainage system is also good. It is a II Class Municipal Committee, which was constituted in 1922. There is a High School for boys and is aided by the Committee. The Hindi Sahitya Sadan Library, affiliated to the all India Hindi Sahitya Sammelan and water works are worth seeing.

There are cotton ginning and pressing factorfes here. It is a town of great importance on account of its being close to Indian Border.

DHARAMKOT

Dharamkot is a small town situated on the old route to Ludhiana from Ferozepur. The original name of this place was Qutabpura which was changed to Dharampur in 1760

by the Sikh Chief Tara Chand Dallewala when he estabished himself here.

There was an old Qila built by Maharaja Ranjit Singh. This place is very hot in summer. Gram and chillies are the big produce of this place and are exported from this place. The construction of a market in Moga, which is situated at a distance of about 10 miles from here, has caused a great decline in its prosperity. There is one Civil Hospital as well as a Veterinary Hospital, a high school, a police station and post office. A Small Town Committee is functioning here since 1925.

BHUCHO MANDI.

It is a small *mandi* situated on the southern side of Sub-tahsil Nathana. It is situated on the Bhatinda-Rajpura line. It is an important Mandi for foodgrains and cotton. The surrounding Ilaqa is mostly sandy, but with irrigation facilities, it is highly fertile to produce wheat, gram, oilseeds, pulses and cotton. Water level is low and deep. This place is generally very hot in summer and cold in winter. Cultivation mostly depends upon canal irrigation. A Notified Area Committee is functioning here which has got its own dispensary and a high school for boys. The people of the Ilaqa depend on agriculture. The Ilaqa Magistrate is the President of the Committee.

MOGA.

Moga is the headquarters of the tahsil as well as that of the sub-division of the same name. It is situated at a distance of 35 miles from Ferozepur towards the east. Two other First Class Magistrates are working here to help the Sub-Divisional Officer in the disposal of criminal work and a Sub-Judge deals with Civil cases of that area. This town is one of the most important towns and has gained great reputation after partition. Practically every branch of the

administration with an officer is there. There is a big Civil Hospital (it gained in size and importance on account of the reputed eye specialist Dr. Mathra Das who spent most of the years of his service here) and the doctor incharge of the Hospital is of the rank of a Civil Surgeon. The area of this tahsil is 285 square miles and the entire area is under consolidation operations. Moga is connected by rail with Ferozepur and Ludhiana and by road with practically the entire State. It has now been connected with Amritsar also.

There are two colleges, one for girls and one for boys providing extensive facilities for the education of boys and girls. The most prominent institution is the Moga Training School for village teachers which is being run since 1911 by the American Missionaries. There are great facilities for irrigation both by wells and canals. It is a great centre for the export of live stock. As a result of good ways and communications many transport companies are flourishing here, and also the workshops for the repairs and preparation of other iron goods. A Municipal Committee functions here. The construction of the grain market near the Railway Station has brought a great prosperity to the town.

Statement explaining the tables of a District Census Handbook.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. Substitution of Economic Classification for classification based on Religion :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population, by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operations, and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

Agricultural Classes

I. Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land; agricultural rent receivers and their dependants.

Non-Agriculture Classes

Persons (including dependants) who derive their principal means of livelihood from :—

V. Production other than cultivation.

VI. Commerce.

VII.. Transport.

VIII. Other services and miscellaneous sources.

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. *The Concurrent 10 % Sample* :—

The Age (sample) tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. *Preservation of Census Records and Registers* :—

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following data are included in the District Census Handbook and printed and published as such :—

i Introduction to the District Census Handbook.

ii District Census Tables (furnishing district data with break up for Census tracts, within the district).

iii Census Abstracts : (a) Primary Census Abstracts (b) Occupational Abstracts and (c) Census Abstracts of Small scale industries.

The following tables have been included in the Handbook

GENERAL POPULATION TABLES.

I. *Area houses and population*

(The area figures given in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department. Number of houses are those which were found to be occupied at the time of house numbering by the revenue staff; un-occupied houses do not figure in the table).

II. *Variation in Population during fifty years.*

(The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of areas transferred to and/or from each tehsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941.)

III. Towns and Villages classified by Population.

IV. Towns classified by population with variation since 1901.

V. Towns arranged territorially with population by livelihood classes.

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B. ECONOMIC TABLES.

I. Livelihood Classes and Sub-Classes.

(Non-earning dependants in this table mean economically passive persons i. e. who do not earn anything; an earning dependant implies a person who is semi-active, i. e. whose earnings do not suffice his living and who has, therefore, to depend upon others; self-supporting persons mean economically active persons i.e who do not depend upon others, and are atleast able to maintian themselves.

II. Secondary Means of Livelihood.

(Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases; the second best source of income has been given in this table as his secondary means of livelihood).

III. Employers, Employees and Independent Workers.

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant Workers and are distributed in the various divisions and sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive e. g. persons living principally on pensions, remittances, scholarships and funds, inmates of jails, asylums, almshouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self-supporting person falls).

C. HOUSEHOLD AND AGE (SAMPLE) TABLES.

I. Household (size and composition. This table has not been published in the handbook.

II. Livelihood Classes by Age Groups.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year age-returns. (Infants below 1 year of age have been shown under the age o

D. SOCIAL AND CULTURAL TABLES.

1. *Language.* This table has not been published in the handbook.

II. *Religion.*

III. *Scheduled Castes and Tribes.*—The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. *Migrants*—(The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district).

V. *Displaced persons.*—For Census purposes, a displaced person was taken to mean "any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the Ist March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan." But some persons, who had migrated to India from Western Pakistan even before 1st March, 1947, returned themselves as displaced persons at the time of Census taking for the simple reason that they had left their immovable property in Pakistan: such persons have also been included in the definition of 'Displaced Persons').

VI. *Non -Indian Nationals.*—(This table was not prepared in the previous censuses: it has been based on a suggestion made by the U.N. Population Commission).

VII. *Livelihood Classes. by Educational Standards.*—(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes).

SUMMARY FIGURES BY DISTRICTS

(This table furnishes selected data by Tahsils/tracts in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment enclaves).
